2018 
**EVROPSKO
LETO KULTURNE
DEDIŠČINE**
#EuropeForCulture

Scheduled topics of presentations and posters

- Natural and cultural heritage of geology, mining and metallurgy in terms of sustainable development and mobility:

The use of natural resources allowed the formation and development of the mining and iron industries in individual environments, while the depletion of the deposits resulted in economic decline and social instability. Are natural resources also the main engine of economic and social development in the 21st century? How did the industry especially regulate individual companies, the topic of environmental protection, how did they prevent contamination of soil, water and air? The development of the industry has influenced mobility, promoted by modern roads that allow the mobility of people, raw materials, products and information.

- Exchange of geological, mining and metallurgical knowledge between different European and non-European countries or regions (important personalities, institutions and companies until the end of the 19th century):

Creation and development of educational institutions, such as geology, mining, metallurgy and other academies, as an engine for industrial development. Their graduates have become carriers of the technical and technological development of individual companies. What role did educational institutions play, who were their professors and people, institutions and promoters of development, what is the role of education for the needs of modern industry?

- Natural and geological heritage, cultural landscapes, industrial architecture, industrial machinery and equipment and technological processes as potential sustainable development:

Industrialization has intervened in the creation of a cultural landscape, giving it a unique stamp of industrial architecture. On one hand buildings erected specifically for specific production processes reflect the range of technical construction and on the other hand the importance of production processes at particular epochs. Mining tunnels, sorting machines, segregation plants, melting furnaces, foundries, hammer mills and rolling mills, iron and steel mills with the machinery obtained serve as a valuable source of many innovations and past improvements.

- The digitization of geological, mining and metallurgical heritage, such as maps, plans, drawings, land registers, documents, images and photos:

In the age of digitization, cultural heritage in libraries, archives and museums were involved in the visualization process. Which material has already been digitized? What are the advantages and requirements? It is to be discussed, if the usefulness of digitized material and creating databases for individual areas is given.

- Intangible heritage in geology, mining and metallurgy: knowledge, inventions, skills, customs, ...

Among the cultural heritage of libraries, archives and museums are diverse knowledge, behaviors, practices, customs and traditions that are centuries old and have changed and evolved during that period. Without the reconstruction of this immaterial heritage, movable and immovable heritage are only silent witnesses to the development of individual activities.

- The introduction of technological and technological innovations takes the knowledge and behavior in previous processes to the fore. Different working habits and practices, both the community and the individual, were associated with it.

- Language and terminology are a particular component of the intangible cultural heritage characteristic of individual linguistic or national communities. Preservation of field names, naming of work processes, employees and machines are rich in linguistic diversity and at the same time show the presence of individual activities in space and time.

Planned program: 4 June to 9 June 2018:

4th and 5th June 2018 (Monday and Tuesday) and 7th and 8th June 2018 (Thursday and Friday):

After the presentation of the lectures short excursions and sightseeing are planned:

- visit to the town of Ravne na Koroškem with visit of the center,
- Visit to the Carinthian National Museum in Ravne na Koroškem,
- Visit to the Central Library of Koroška Franz Sušnik Ravne na Koroškem,
- Visit to the local subdivision of the regional archives of Maribor,
- Visit to the Gallery of Fine Arts Slovenj Gradec, Ravne na Koroškem Gallery

6th June 2018 (Wednesday): Morning - Presentations, Afternoon - Excursion:

Excursion to the Geopark Karawanken, visit of the Petzen caves, the former lead mine of Mežica; Visit to Crna [Schwarzenbach] Carinthia, the birthplace of Olympian Tina Maze; Visit to Leše and visit of a former coal mining village, where coal was discovered in 1818.

June 9, 2018 (Saturday): full-time excursion:

Visit of the Gornjesavski Museum in Aßling (Jesenice) in the ironworks town Jesenice.

Visit Ljubljana, capital of the Republic of Slovenia: visit of the Technical Museum Slovenia

Place of the conference and lectures: The conference will take place in the premises of the **Srednja sola Ravne, Na Gradu 4a, 2390 Ravne na Koroškem** (<http://www.srednjasolaravne.si/>) and the Carinthian Central Library. Franc Sušnik (<http://www.rav.sik.si>) from Monday 4 June to Friday 8 June 2018.

Events:

- | | |
|------------------------|---|
| 4 June 2018 - | Beginning of the symposium (conference office open from 8:30 am)
Opening, greetings about 9:15 clock |
| June 9, 2018 - | End of the symposium (afternoon at about 4:00 pm in Ljubljana and around 7:00 pm in Ravne na Koroškem) |
| July 31, 2018 - | Submission of papers , the maximum of 20,000 characters and up to 5 illustrations should include an abstract and summary in English. |

If not done yet, please transfer before the meeting - payment of the conference fee:

Participants 100 .-- €, students 70 .-- €. The conference fee includes the conference documents with the abstracts, the lunches (Mon - Fri) as well as all coffee breaks.

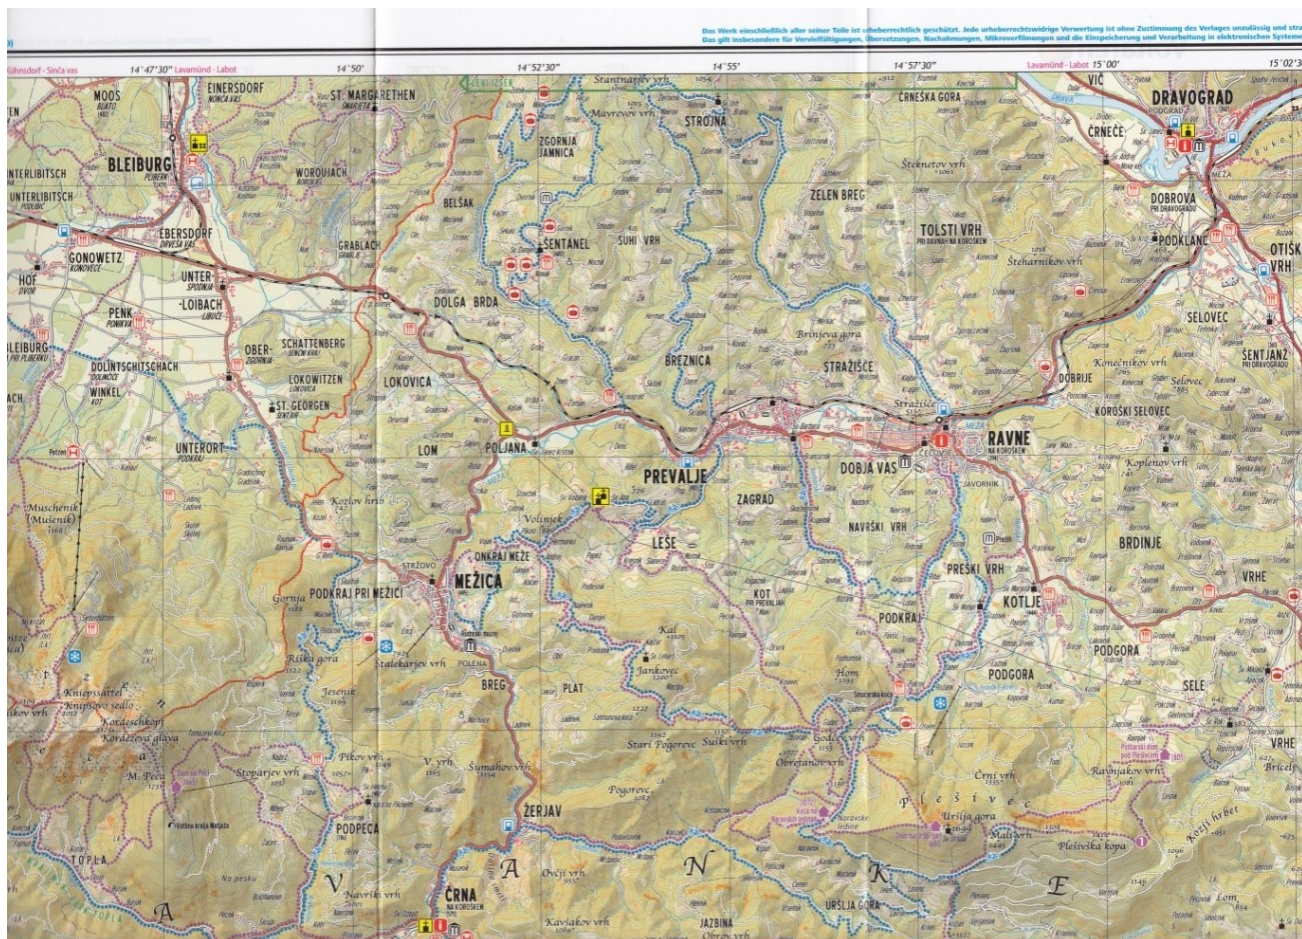

The cost of the bus trip for the excursion on Saturday, June 9, 2018 is not included; These are to be paid upon receipt of the conference documents.

Account:

Delavska hranilnica Ravne na Koroškem
Trg svobode 20
2390 Ravne na Koroškem

Receiver:

Društvo Slovenska pot kulture železa
Koroška cesta 12
IBAN: SI56610000017641834
BIC / SWIFT.. HDELSI22
purpose of payment. 04062018 please submit the purpose!

Symposium Location / Approach

The 14th Heritage Symposium is held in collaboration with the Association of the Slovenian Pot kulutre zeleza and other organizers in Ravne na Koroškem (Slovenia), which has a 400-year tradition of iron in the Mießtal, near the Slovenian-Austrian border. Ravne na Koroškem is 69 km from Maribor, 63 km from Celje and 115 km from Ljubljana. Ravne na Koroškem is 95 km from the Austrian city of Graz and 70 km from Klagenfurt.

<http://www.koroska.si/si/>

The symposium takes place in the rooms of the Strdnja sole Rave, Na Gradu 4a, 2390 Ravne (<http://www.srednjasolaravne.si/>) and the Carinthian Central Library Dr. Franz Sušnik in Ravne (<http://www.rav.sik.si/en/>) from Monday 4 June to Friday 8 June 2018.

Ravne na Koroškem is accessible by private transport, rail from Marburg / Maribor (only a few trains), taxis and from Ljubljana airport with the operator GoOpti: <http://www.slovenia.info/en/> ; <http://www.goopti.com/>.

Accommodations:

From Ravne you can reach Prevalje 4 km, Dravograd 9 km and Slovenj Gradec 13 km.

Accommodation: <http://www.koroska.si/en/furnets> :

Hotel Delalut: <http://www.delalut.si/index.php?lang=de> ,

Pension Krivograd, Poljana 10a, 2391 Prevalje: <http://www.krivograd.si/sobe/> ,

Brančurnik, Pri Brančurniku 1, 2391 Prevalje: <http://brancurnik.si/> .

With own vehicle following accomodations can be reached:

Ekohotel Koroš, Jamnica 10, 2391 Prevalje: <http://www.koroska.si/si/flat/tourism-culture> ;

<http://www.bikenomad.com/> ,

Hotel Korošica **** Otiški Top 25 D, 2373 Šentjanž pri Dravogradu: <http://www.korosica.si/?lang=sj> ,

Hotel Dravograd: <http://www.hotel-dravograd.com/>

Organization of the symposium 2018

Organizer

Društvo Slovenska pot kulture železa (society)
Koroški pokrajinski muzej, Muzej Ravne na Koroškem (Museum)
Šolski center Ravne na Koroškem, Srednja šola Ravne (high school)
Koroška osrednja knjižnica dr. Franca Sušnika Ravne na Koroškem (library)
Zgodovinsko društvo za Koroško (Historical Society of Carinthia / Koroško)
Občina Ravne na Koroškem (local community)

Local Organizing Committee

Maksimilijan Večko, Društvo Slovenska pot kulture železa
Jakob Lamut, Društvo Slovenska pot kulture železa
Karla Oder, Koroški pokrajinski muzej, Muzej Ravne na Koroškem
Ivanka Stopar, Šolski center Ravne na Koroškem, Srednja šola Ravne
Irena Oder, Koroška osrednja knjižnica dr. Franca Sušnika Ravne na Koroškem
Tomaž Rožen, Občina Ravne na Koroškem
Irena Lačen Benedičič, Gornjesavski muzej Jesenice
Slavica Glavan, Železarski muzej Štore
Gorazd Tratnik, Štore Steel d.o.o.
Rotraud Stumfohl, Wien/Österreich

»Life Honorary Presidents«

Lieselotte JONTES, Leoben, Austria
Fathi HABSHI, Quebec, Kanada
Tillfried CERNAJSEK, Perchtoldsdorf, Austria

Internationales Organisationskomitee 2016–2018
