The university library "Georgius Agricola" invites you to

### **16th International "ERBE" Symposium**

Cultural Heritage in Geosciences, Mining and Metallurgy  
- Libraries - Archives - Museums -

from 06 - 09 September 2023  
to Freiberg.

All good things come in threes ...

After exactly 30 years, the first heritage symposium took place in Freiberg in September 1993 and the 10th heritage symposium in 2009, we once again invite you to Freiberg. We look forward to welcoming you to our new university library.

The central topic will be the current handling of the geohistorical and mining historical heritage. The focus should be on the questions of what influence, among other things, digitization and climate change have on the holdings and collections and in what form international networks can act in the future?

However, as has been the tradition for 30 years, other contributions, e.g. the presentation of collections or the presentation of interesting projects, are also welcome.

From September 6th to 8th, 2023 we will listen for presentations and discuss lectures and on September 9th there will be our full-day excursion.

Please send registrations for lectures and/or poster contributions to the following email address by November 30, 2022: [angela.kiessling@ub-tu-freiberg.de](mailto:angela.kiessling@ub-tu-freiberg.de).

We will charge a conference fee of €100 + excursion, but offer reduced fees for students and day visitors.

All relevant information and a registration form (German/English) are available on the Heritage Symposium [www.erbe-symposium.org](http://www.erbe-symposium.org) or the Freiberg University Library website <https://tu-freiberg.de/ub>.
